## Description

"The Psychiatric Years EP" is rescued material from TCBP, about 4-5 years old, compiled into two EPs. "Vol. 2" contains 8 tracks. All rather short, between 1:30 and 3:30 minutes. And the tracks can be seen as little folk-tales. Main themes are rebellion, madness, loneliness, despair and death. And so the mood swings between dark, melancholic and engrossed.

The recording-quality is pretty low but in my ears that gives the record a charming outfit. You can hear footsteps, screaming, radios in the background. But all these elements give the songs a great ambience.

Just some words about The Cherry Blues Project: The Cherry Blues Project was formed in 2001 as a soundart project in Argentina. It was created by two members that use the pseudonyms "Cherry" & "Blues". Until today they released a big number of albums and material, mainly focused on experimental and improvisational music.
